

# CONDOLEEZZA RICE GO HOME!

The US Secretary of State Condoleezza Rice will be in Stockholm on May 29<sup>th</sup> in order to participate in the conference “International Compact With Iraq” with her obedient Iraqi government, headed by Nouri al-Maliki, with the secretary general of the UN and representatives of around 50 other countries. The fact that the Swedish foreign minister Carl Bildt who, in 2003 actively advocated the war, is now warmly welcoming Rice is a disgrace to Sweden.

Rice is one of the ministers in the Bush administration that bears the main responsibility for

- the use of torture in Guantanamo in Cuba, in Abu Ghraib prison and in other prison camps in Iraq and Afghanistan
- the violation of the Geneva conventions regarding the treatment of prisoners of war
- the lies about Iraq's supposed weapons of mass destruction
- the lie about Iraq's supposed collaboration with al-Qaida
- the lie that Iraq was behind the terror attack against the World Trade Center

Rice is also responsible for having started a war based on these lies, a war of aggression that has so far led to

- between half a million and one million dead Iraqis
- the destruction of whole cities, lethal long-lasting environmental damage from the use of depleted uranium weapons etc
- 4000 dead occupation soldiers
- almost 5 million refugees
- the threat of new wars and increased global terrorism

In the US more and more people demand an end to the war policy. A majority of the Americans want the US to bring the troops home from Iraq and Afghanistan. And an increasing number of Americans demand that those who started the war based on lies be impeached.

In 2003 Sweden condemned the US war of aggression against Iraq as did a majority of the countries represented in the UN General Assembly. We demand that the Swedish government adhere to this policy and repeat the condemnation.
